# ***ABOUT UNITED WAY DELHI***

---

United Way Delhi is an independent local not for-profit organisation affiliated to the United Way Worldwide Family – one of the World's Largest Leadership with 1800 affiliate chapters across 41 countries. United Way Delhi (UWD) since 2008, is working actively to advance the 'common good' for the local community through innovative interventions and partnerships. Our programs are based on the 'Life-Cycle approach'. The interventions range from enabling a child-friendly classroom for an Anganwadi– going child to building toilets, to aiding schools for improving the overall learning curve, and it doesn't stop there! We address the local issues by building youth leaders among the community, empower women to take charge of their lives and families, initiate the conversation to tackle larger problems of the environment! United Way Delhi is governed by a volunteer board with representation from organizations including Corporate Flyers, Amway India, Carlson Rezidor, Pratt & Whitney, UTC, Cargill India, KPMG, Yes Bank, Flour Daniel India and PWC.

## OUR MISSION

Improving lives  
by mobilizing

SOCIAL

GOVERNANCE

## INTRODUCTION TO ESG INITIATIVE

Embrace positive change with UWD's ESG initiative, making a lasting impact by promoting environmental, social, and governance sustainability. Your support fuels a brighter future for communities and the planet. Plantations, waterbody rejuvenation, solar electrifications etc. are done with good governance and inclusive approach towards communities for sustainable future.

### 1. Environmental Sustainability:

- *Tree Plantation Initiatives:* United Way Delhi initiates in tree plantation drives in urban and rural areas to promote green cover.
- *Waste Management Programs:* We engage in waste management, including recycling and waste reduction, to minimize the environmental impact of waste disposal.
- *Clean Energy Promotion:* United Way Delhi supports and advocates for the use of clean and renewable energy sources to reduce carbon emissions. Solar projects etc.

### 2. Social Sustainability:

- *Education for All:* UWD is committed to improving access to quality education, especially for underprivileged children, to bridge social gaps.
- *Healthcare Initiatives:* United Way Delhi runs healthcare programs that provide medical support to marginalized communities, ensuring better health outcomes.
- *Women Empowerment:* UWD believes in promotion of gender equality and women's empowerment through skill development and entrepreneurship programs.

### 3. Governance Sustainability:

- *Transparency and Accountability:* United Way Delhi maintains basic standards of governance, ensuring transparency in financial transactions and decision-making processes.
- *Community Engagement:* We involve local communities in the decision-making process and seek their input to ensure that their needs and concerns are addressed effectively.
- *Advocacy for Policy Change:* The organization actively advocates for policies and regulations that promote social equality, environmental protection, and ethical practices.

**United Way Delhi's commitment to ESG sustainability not only benefits the local community but also sets an example for other organizations to follow. Our multifaceted approach addresses the interconnectedness of environmental, social, and governance issues, creating a more sustainable and equitable future for Delhi NCR.**

# MESSAGE FROM THE CEO

**Dear Friends,**

The trajectory of United Way Delhi has been marked by dynamic innovation, robust collaboration, and an unwavering commitment to effect positive change in our society. Our guiding principles, integral to our journey, have ensured that we remain resolute in our mission to create an inclusive and diverse environment where every individual and voice is valued.

First and foremost, I extend my heartfelt gratitude to our partners, donors, volunteers, and well-wishers for their invaluable contributions to our shared mission of bringing about positive and sustainable change in the lives of those who need it most. Reflecting on the past year, we have achieved significant milestones in furthering our mission.

Our collective efforts have left a lasting impact, providing foundational learning, quality education, and early childcare to children, delivering essential healthcare services and infrastructure to remote communities and underserved sections of society, and promoting livelihood generation and financial security for women and youth.

Additionally, we have been at the forefront of advocating for environmental conservation and disaster risk mitigation, while also addressing the economic recovery, education, and mental well-being support needed in a society grappling with the aftermath of the pandemic.

A crowning achievement from the past year was our role as the NGO and philanthropic partner for the Vedanta Delhi Half Marathon. This event saw (approx. number of runners) individuals commit to running for a social cause, resulting in (number of NGOs) raising a total of (total funds raised) towards empowering change and transforming lives.

Emphasizing the collective impact we can make together, our dedicated and passionate team of professionals is fuelled by a renewed determination to innovate, collaborate, and advocate for the evolving needs of the communities we support.

I extend my deepest gratitude to every member of our organization for their unwavering commitment to realizing our mission and vision, and transforming challenges into opportunities. As I present our Annual Report for the year 2022–23, I am filled with immense pride, recognizing this as an opportunity to share our inspiring story.

Thank you to everyone who has been part of this remarkable journey with us.

**SACHIN GOLWALKAR**  
**CHIEF EXECUTIVE OFFICER,**  
**UNITED WAY DELHI**

# MESSAGE FROM THE BOARD

Dear Partners,

As we contemplate the events of the past year, our journey unfolds as a testament to the unwavering dedication and commitment of our team, showcasing the resilience of United Way Day. In the face of the global pandemic, which presented myriad challenges to our nation and its communities, United Way Delhi emerged at the forefront of the post-COVID era, responding with innovation and prioritizing the safety and well-being of the communities and beneficiaries we serve, all while steadfastly adhering to our mission of enhancing lives for the common good.

Throughout the past year, our programs and initiatives have touched the lives of countless individuals across diverse communities, offering a beacon of hope during times of adversity. From our proactive COVID Response and Recovery interventions to the facilitation of essential healthcare infrastructure and services in underserved regions, United Way Delhi has also played a pivotal role in raising awareness and dismantling the stigma surrounding mental well-being. Recognizing the importance of mental health advocacy, we strive to promote understanding, reduce stigma, and encourage individuals to prioritize their mental well-being.

United Way Delhi is dedicated to engaging a multitude of stakeholders, including communities, institutions, governments, corporates, and non-profits, fostering collective and unified action for sustainable development. The successful execution of the Vedanta Delhi Half Marathon in the previous year stands as a prime example of our commitment to this objective.

Moving forward, we remain committed to playing a crucial role in crafting success stories of growth and positive change for those in need. Our dedicated and committed team continues to work progressively, ensuring tangible outcomes from our collective efforts. With the ongoing support of our valued partners, donors, and volunteers, we aspire to realize our shared vision at every step of our implementation.

Thank you for your continued partnership and unwavering support.

**MS. RINA KAUSHAL**  
**CHAIRPERSON**  
**UNITED WAY DELHI**

# CONNECT

# *COMMITTED TO COMMUNITY, DEDICATED TOWARDS PROGRESS*

# EARLY CHILDCARE & FOUNDATIONAL LEARNING

*"The classroom looks incredibly beautiful after the Bala art. It will provide an opportunity for them to discover and learn new things. The children are now very happy, and so am I. I would like to thank United Way Delhi for illuminating the path to a brighter future for my kids."*

*Mrs. Manisha Hari Ram Bajgude, Rahul's Parent (Child's name changed in guidance of UWD's Child Protection Policy)*

# NEEV - ENHANCING FOUNDATIONAL LEARNING POST COVID

The project NEEV recognizes the significance of preschool education based on development of foundation learning among children belonging to the 0 - 6 years age group. It is a stage where they are to be introduced to new concepts, learn how to establish social interaction with others and get used to being separated from parents. Addressing the same, NEEV emphasizes on the implementation of high quality Early Childhood Care & Education (ECCE) through strengthening the capacities of Anganwadis/Balwadis in facilitating proper care and fostering an environment intrinsic to quality educational, emotional, physical and psychological growth for the children and all stakeholders involved. The Project, based in Delhi and Pune, Maharashtra, has implemented the upgradation of Balwadi/ Anganwadi centres into child-friendly ECCE centres for the provision of quality learning support to young children (0 – 6 years). Capacity building of Balwadi and Pre-School staffs and parents, especially mothers were also facilitated for delivering proper care in a safe environment in both the schools and homes for the children. Furthermore, multilingual development learning materials such as workbooks were developed, and Building as Learning Aid (BALA) art was incorporated into the entire Balwadis infrastructures to enhance visual learning among the children.

## PRE - INTERVENTION

## POST - INTERVENTION

"UWD's kind efforts and unwavering support have made a remarkable difference in our student's learning journey. We are confident that our educational experience will be greatly enhanced because of their dedication. Thank you for your invaluable contributions."

Ms. Babita Kambale, Principal  
Appasaheb Jadhav School, Pune

A photograph of two students, a girl on the left and a boy on the right, working together on a project. The girl is wearing a red shirt and has dark hair tied back. The boy is wearing a white shirt and safety goggles. They are both focused on a pink cardboard box that has some electronic components and wires attached to it. The background is slightly blurred, showing what appears to be a classroom or workshop setting with a window and some equipment.

# EDUCATION & YOUTH SUCCESS

*GROW TODAY, LEAD TOMORROW*

*"I'm Hussain, an 8th-grade student at RVHS. YRC has been a welcoming space where I've made friends and focused on improving my school performance since 2020. I value the life skills sessions, especially empathy and problem-solving, which have made me more understanding and considerate. YRC has broadened my horizons by teaching me Telugu and computer skills. My aspiration is to become a mechanical engineer, and I'm eager to pursue my learning journey at YRC."*

*- Hussain*

## SCCD - SCHOOL AT THE CENTER OF LEARNING

The **School Centered Community Development** (SCCD) Program aims to provide quality education and create an enabling environment for marginalized children, focusing on keeping the school at the center and involving the surrounding community to bring holistic transformation. Initiated in November 2017 covering four government schools and one community in Delhi, the program has expanded to three other locations in Hyderabad, Pune, and Bengaluru. The project emphasizes student-centric interventions, community outreach, and stakeholder collaboration to create a supportive ecosystem for the development of children and the community as a whole and aims to empower students as catalysts for change.

The life cycle approach of the program consists of three components: early childhood care and development, enhanced learning outcomes for students, and youth engagement as active citizens. The program covers 40 schools, 59 Anganwadi Centres, and 4 Youth Resource Centres, impacting a total of 24,279 students/youth and involving 276 teachers

### YOUTH RESOURCE CENTRE

Youth Resource is a pivotal player in which revolves our mission around unleashing the latent capabilities of India's youth. We tackle this endeavor through a multifaceted approach encompassing Life Skills development, Social Initiatives, Mentoring programs, Leadership Remediation, Academic support, and various other avenues. In essence, YRC is not merely a center; it's a catalyst for change, a platform for India's youth to flourish, and a conduit through which they can contribute to their communities and beyond.

## IDIA - FROM EDUCATION TO IDEATION FOR SUCCESS

The Integrated Development through Innovative Approach (IDIA) program is aligned with United Way Delhi's School Centered Community Development (SCCD) program. The program envisages a school environment that is conducive to learning which requires investments at multiple levels. Under the program, it is mandated to set up digital classrooms at 3 Government Middle Schools in project locations to supplement teaching through digital support. Youth Resource Centres (YRCs) function as key pillars to the program, ensuring as a platform with a safe environment for learning. Through remedial classes, life skills and vocational trainings, digital and financial literacy, sports, arts and culture activities etc., the youth are engaged to freely enjoy, experience, learn, explore, grow and discover potentials, capacities and confidence, enabling them to make choices for their higher education, career paths and discover themselves.

## TINKERING LAB

A tinkering lab project supported by AMD INDIA Private Limited was implemented in the Government Senior Secondary School at Hazipur, Sohna, Gurugram (Haryana). It aimed to improve the conceptual and practical learning of the students by organizing various classes related to Tinkering Lab. The lab is equipped with state-of-the-art Science & Tinkering models and equipment along with DIY Kits to reach out to a maximum number of students in the school. The focus is on conducting experiential learning and introducing Artificial Intelligence (AI) and Robotics concepts through trained mentors periodically.

## DIGITAL & SMART CLASSROOMS

A digital classroom project supported by AMD INDIA Private Limited was implemented in two schools in Sohna block in Gurugram district (Haryana). The program aimed at strengthening the education system through promoting STEM (Science, Technology, Engineering and Mathematics) and experiential learning among students by means of a canvassed STEM Education and Digital Classroom. It also aimed to improve the conceptual and practical learning of the students by organizing various classes related to STEM education.

Additionally, a smart classroom project was implemented in four Government schools of Sahibabad, Ghaziabad district (U.P.). A smart classroom is an EdTech-upgraded classroom that enhances the teaching and learning process for both the teachers and the students by inculcating usage of audio, video, animations, images, multimedia etc. This increases the engagement factor and leads to better-performing students. Approximately 2165 students would be benefitted through these smart classrooms.

# FINANCIAL STABILITY

EMPOWERING LIVES AND  
INSTITUTING STABILITY

*"I may have faced hardships, but with determination and the support of SAMRIDDHI, I turned my dreams into reality. Today, I stand as a testament to resilience and the power of self-belief."*

- Bimlesh

## ***THE ROAD TO FINANCIAL STABILITY WITH UNITED WAY DELHI...***

"I usually shied away from asking for help, fearing rejection. United Way's Project Samriddhi has taught me self-respect and confidence. Instead of shying away, I channeled my energy into stitching and altering clothes. This created a loyal customer base, and soon, word-of-mouth transformed into my greatest publicity tool. As time flowed, curious girls approached me for stitching lessons, gradually evolving into my trainees. This not only boosted my income but also offered me valuable assistance. With just one sewing machine, I'd cut the fabric and pass it to them for stitching, allowing me to manage other tasks simultaneously.

With both space and a devoted clientele, I capitalized on clothing opportunities. Whenever stitching or alteration requests came in, I sweetened the deal by offering a ready-made piece at a more affordable rate than the market. By keeping a mental tab on competitors' prices and selling my product at a slightly lower cost, I implemented a strategy that lured customers in and kept them coming back for more. My life has changed completely since joining Samriddhi, and I wish to support United Way Delhi to support more women towards the path of re-discovering themselves and reaching a point of financial independence and stability."

***Gunjan, Project Samriddhi***

## WE LEAD: CAPACITATING LIVELIHOODS FOR FINANCIAL STABILITY

Program 'WELead' aimed at ensuring sustainable livelihood of women through engaging them in upskilling and strengthening for entrepreneurship they aspire for and earn for meeting their needs. The project overall aims to:

- Map aspiring women entrepreneurs and capacitate them in their journey towards establishing sustainable livelihoods
- Facilitate financial and digital literacy skills along with improvising knowledge for business development and management among future women entrepreneurs

## SAMRIDDHI: PAVING THE WAY FOR WOMEN IN ENTREPRENEURSHIP

Project Samriddhi, initiated in 2016, empowers women from poor households in Delhi's Kapashera community. It provides digital financial and business knowledge, personalized leadership support, and helps women start and grow businesses. Over the five years, Samriddhi has benefited 3560 women, enabling 181 aspiring women to start successful ventures and improve their livelihoods.

## JOVT - UNLOCKING POTENTIALS, BUILDING CAREERS

The **Job Oriented Vocational Training** program project aims to skill and train unemployed youth to provide them with livelihood support through employability access in the healthcare sector. It implements healthcare/soft skills and employability training in Vocational Centres across 13 states with the overall commitment to impart valuable skills to 6900 youth within a period of 2 years. Youth from low – income households were mobilized and targeted under this program to join the course for post – career guidance and counselling sessions.

## IRDP - BUILDING STRONG AND RESILIENT COMMUNITIES

United Way of Delhi envisaged an integrated project approach titled as '**Integrated Rural Development Project**' (IRDP) incorporating COVID-19 response, rehabilitation of people affected by COVID-19, the need to adopt an integrated development approach to improve the environmental conditions of people, health, and livelihood of the people impacted by COVID-19. The project was implemented in 10 villages in the Sohna block of Gurugram district. The key focus was to improve the environmental and livelihood conditions of underprivileged sections of society. Supported by United Way Worldwide and Hitachi India, the project enhanced and sharpened the skills of the people affected by COVID-19 to have livelihood opportunities, enabling them to improve their standard of living. Moreover, the program also had a sharp focus to take on challenges for contending pandemic and post pandemic situation.

ACTION**

**GROWTH &  
SUSTAINABILITY**

## LET'S HEAR KITABO'S STORY

Amidst the backdrop of responsibilities and challenges, Kitabo's life unfolded like a story of relentless perseverance. Armed with only the most basic education, she bore the weight of an ailing husband and two young children who were not yet equipped to manage the complexities of family life. In a quest to meet the most basic needs, Kitabo embarked on a journey of hardship. With a husband earning daily wages, their income couldn't suffice for their children's education. Acknowledging the need to augment their resources, Kitabo stepped up to provide for her family. Armed with an old hand-sewing machine and limited knowledge of blouse stitching, she set out on her path as a tailor. However, the journey was far from smooth, with a significant portion of her earnings earmarked for her husband's medical needs. This financial strain forced her daughter to halt her education, while Kitabo rented a shop at a monthly expense of Rs. 6000 to continue her business.

Three years passed in this struggle, with Kitabo relying on the old sewing machine for alterations and blouse stitching. Post Project Samriddhi's arrival in the community, a friend introduced her to Samriddhi's initiative of providing sewing machines to women. Amid doubts and concerns, Kitabo's determination led her to explore this opportunity. While uncertainties clouded her mind, she couldn't deny the potential this opportunity held. The prospect of undergoing better training and skill enhancement offered under Samriddhi fueled her dreams, erasing her scepticism. As she embraced the training offered by Samriddhi, she discovered new horizons. Designing Palazzo pants and Petticoats became her newfound skill. Beyond stitching, Samriddhi's sessions encompassed business growth, financial literacy, savings, and women's empowerment. These learnings seeped into her life, fueling her business expansion and aiding her in managing her finances.

Through the project, she received a new and advanced sewing machine which elevated her skills and productivity, doubling her income. With regular and new customers flowing in, she found herself in demand. This newfound success also paved the way for her daughter's marriage, a dream she could realise through dedicated savings and her husband's support. As she continued to juggle her personal and professional life, she wove her aspirations into reality, owning a plot and constructing a home in Najafgarh.

However, life's uncertainties didn't wane. Despite her achievements, her husband's health remained a challenge. As his medical expenses surged, her earnings dissipated. Yet, she pressed on, commuting from Najafgarh to Kapashera during the lockdown, ensuring her family's needs were met. Through her tireless dedication, her business became the family's sole breadwinner. As her journey unfolds, Kitabo embraces determination and hard work as her guiding stars. With a steadfast gaze on the future, she envisions a shop filled with an array of fabrics, laces, and more. Her aspirations remain unbound, and she voices her request for an additional interlock machine from Samriddhi. In the tapestry of her life, Kitabo is a testament to how resilience and dedication can weave a fabric of success even in the face of challenges unknown.

***"The journey from difficulty to buy a sewing machine to owning a house has truly been inspirational".***

# GOOD HEALTH & MENTAL WELLBEING

CREATING A COMMUNITY FOR THE  
WELLBEING OF ALL

*"My year-long project deepened my commitment to children's well-being and broadened my skills. It was transformative, personally and professionally. I discovered new skills like Teacher Sensitization and Targeted Circle Time and recognized the importance of mental health in underserved communities. Much work remains for universal accessibility."*

*- Arushi Rakheja, Senior Psychologist, SMHI*

# LONG TERM RESILIENCE BUILDING

## BUILDING RESPONSE, RECOVERY, REHABILITATION AND RE-BUILDING POST COVID

The Covid 19 Response, Recovery, Rehabilitation and Re-Building Program provides quality of health services including mental health services for economically disadvantaged populations through accessible and affordable facilities in the community. Based on the outcomes of community health assessment activities and community health improvement processes, a comprehensive community health improvement plan was a long-term, systematic attempt to address public health issues. With support from Macarthur Foundation, United Way Delhi team aided in providing multiple facilities to communities, such as:

- Critical Pulmonary Care Support & Public Health Awareness Media Development
- Covid Cold Chain Support & Health on wheels (Swasthya Vaahini)
- Enhancing the capacities of grass-root healthcare centres in post-covid health systems and management
- Access to quality mental health support (especially in the post-COVID scenario) for underserved communities

## A UNITED FIGHT TO STOP TB

United Way Delhi is taking proactive steps to raise awareness about tuberculosis (TB) and its prevention in the National Institute of Tuberculosis & Respiratory Diseases (NITRD) dispensaries located in Jaunapur and Mehrauli. Through the interventions of health check-up camp with the support from NITRD medical staff, wall art, awareness materials, technical app etc. the project takes on a comprehensive approach in uniting for the prevention of TB.

## SVASTI – A MENTAL WELLBEING INITIATIVE OF UNITED WAY DELHI: FACILITATING WELL BEING FOR ALL

Committed to promoting mental wellbeing, fostering a supportive and inclusive environment and advocating equitable access to high quality mental wellbeing awareness to all, SVASTI, an initiative by United Way Delhi, focuses on three sections:

- The School Mental Health Initiative (SMHI)
- Community Mental Health Initiative (CMHI)
- National Consultation on Mental Health

### PRIORITISING WELL BEING IN SCHOOLS

The **School Mental Health Initiative (SMHI)** was conceptualized with the focus on providing mental health services encompassing preventive and primitive measures for students from Grades 6th to 12th, whilst also simultaneously engaging with the well-being of teaching staff. The project aims to recognize student's emotions and feelings and support them to express them in a healthy manner. Through the newly introduction of a mobile health van, the project further envisions to connect students needing help to specialized mental healthcare centres as well as sensitize school teachers and staff to identify and address mental well-being with the students.

### PRIOTISING WELL BEING IN THE COMMUNITY

The goal behind the **Community Mental Health Initiative (CMHI)** is to create a replicable model for facilitating to and expanding mental wellbeing services for women belonging to marginalized and underserved sections of society.

# SVASTI

## A National Consultation on Charting a Roadmap for post covid Mental Health Services IN INDIA

The National Consultation served as a platform for ongoing discussions and endeavors to address the ever-evolving challenges in mental well-being. With time, SVASTI envisions to evolve into a bi-annual deliberation, gathering experts and stakeholders to explore emerging issues and sustain progress in the realm of mental well-being. By embracing collaborative efforts, continuous dialogue, and evolving strategies, the nation endeavors to create a brighter future where mental well-being is accorded the attention, care, and resources it deserves.

The consultation sought to delve into two key areas of concern: understanding the social and mental vulnerabilities faced by women, youth, the elderly, and children, and improving mental health issues within the workplace, with a specific focus on unorganized sector workers. India, a country confronted with the daunting challenges posed by mental health disorders, has embarked on innovative initiatives to address this pressing issue. One noteworthy endeavor is the National Mental Health Program, launched in 1982. At its core, this program employs a decentralized approach to mental well-being service delivery, primarily through the District Mental Wellbeing Program established in 1996.

To enhance the overall accessibility and affordability of mental well-being services and foster well-being, the Unified Working Group on Mental Health and Development (UWD) organized a collaborative one-day consultation. This event, conducted in partnership with the Principal Scientific Advisor to the Government of India (PSA) and the National Institute of Mental Health and Neurosciences (NIMHANS), brought together a diverse panel of experts from government agencies, civil society organizations, and industry.

A woman wearing a pink hijab and a red shawl is smiling and holding a large white banner. The banner has text in blue and green, including 'I Support', 'I Pledge to Unite for Air', and '#GurugramUnitedForAir'. The background is slightly blurred, showing other people and lights.

# BUILDING GREEN & SUSTAINABLE COMMUNITIES

*"With the installation of the 5kw solar panels in our school, it has benefitted not only the students but also us educators in enriching their knowledge in STEM and environment sustainability."*

*- Teacher, Government Vidyalaya, Lohsihghani Village, Sohna*

# CLEANER AIR, GREENER GURUGRAM : UNITED FOR AIR

The 'United for Air' campaign commenced in the year 2018 with the vision to engage citizens of Gurugram through awareness on the current air quality in order to generate impactful environment consciousness for clean air and greener Gurugram. The campaign engages with the public through various community engagement activities and events aligned with its vision at venues such as Schools, Colleges, Resident Welfare Associations (RWAs), Government, Corporate offices etc. . It focuses on reporting the air quality in Gurugram by means of a mobile application, a dedicated website and on-road LED panels, which display real time PM2.5 & PM10 levels of selected localities in Gurugram city. Social media handles like Facebook, Twitter & Instagram connect with the audience on larger platforms.

## CONNECTING COMMUNITIES TO SUSTAINABILITY

Connecting communities to sustainability is an ongoing process that requires collaboration, education, and a commitment to long-term environmental and social well-being. Sustainability involves meeting the needs of the present without compromising the ability of future generations to meet their own needs. By working together and taking meaningful actions, communities can play a significant role in building a more sustainable future. United for Air promotes sustainability education in schools and communities to raise awareness about environmental issues, climate change, and sustainable practices and organizes workshops, seminars, and information campaigns to educate community members about sustainable living.

## CYCLOTHON TO STAND UNITED FOR AIR

Cycling is a sport that not only keeps people healthy and motivated but is also an eco-friendly way to commute. The UFA cyclothon covered a distance of 6 kilometers from Saini Khera Point to Tau Devi Lal Biodiversity Park, Gurugram, Haryana. Citizens ranging from different age - groups, from across the entire Delhi NCR region participated in the event, thus strengthening the event's objective towards sensitizing today's generation to partake in our mission for standing United as one striving to have cleaner and healthier air for all.

More than 450+ cyclists contributed towards 225 + percent reduction in carbon emissions on 25th February, 2023. The route for the cyclothon was well aligned with Air Monitors displaying real-time PM 2.5 and PM 10 status of air quality.

# OUR ENVIRONMENT, OUR RESPONSIBILITY

## IGBC GREEN YOUR SCHOOL – A GREEN VISION FOR A SUSTAINABLE TOMORROW

The IGBC Green Your School is an annual program open to schools across India where the various and diverse schools are encouraged to discover and come up with innovative as well as sustainable ideas for improving and converting their existing school ground into an Environment Compatible Campus, a.k.a., Green School Campus. This program helps in the reduction of the carbon footprint generation of the schools, along with educating the students, the nation's future generation, on eco-friendly practices for protecting and caring for their environment and green surroundings.

## TIDY TRAILS: THINK GREEN, GO GREEN

Tidy Trails a UWD Flagship aims at effective management of post - consumer plastic waste. This initiative has been launched in Mathura and Vrindavan to encourage people to keep their local environment clean and foster 'tidiness', thereby setting good examples and inspiring other communities to follow. Waste segregation bins are installed at the shops and establishments. A dedicated van goes around the shop stretches in the city to collect the plastic. Community awareness and sensitization events are also held on regular basis to build the capacity of citizens as Tidy trails ambassadors.

## SOLAR ELECTRIFICATION IN 20 PUBLIC SCHOOLS

United Way Delhi's School Support Program works on various components associated to enhance the overall environment of learning within a school campus. It aims at creating an enabling ecosystem for the children in their schools and offers the most suitable environment in terms of infrastructure and other facilities necessary for arriving at a child's proper physical and emotional wellbeing and development. PNBHFL Shifting to alternative sources of energy being the key to a sustainable tomorrow, United Way Delhi's solar electrification program is committed to the cause. Under the program, solar electrification including solar panels, wiring and other related equipment were installed at 20 government schools 4 Anganwadi Centres. The Schools were equipped 20KW Hybrid PV Solar Power Set – Up and the Anganwadis were equipped with 5KW Set – Up.

## SOLAR PANEL INSTALLATION IN SCHOOL

Under the initiative of UWD's School Support Program, with support from AMD, the campus of a Government school is equipped with a 5Kw Hybrid PV Solar Power Setup. This would serve as a backup power source in times of load shedding and replace the utilization of conventional electricity for the operation of facilities dependent majorly on electricity, such as smart classroom, computer & STEM lab etc. This will also implement a sustainable and productive environment for the children to acquire more knowledge and insight on solar energy as a resource towards a green and eco – friendly future.

# DISASTER RESPONSE, MITIGATION & PREPAREDNESS

LEADING  
THE CHARGE,  
INSPIRING  
THE CHANGE.

# DISASTER RESPONSE - SAFE DRIVING AND RIDING TRAINING PROGRAM

Delhi has the highest number of fatal accidents among all cities across the country, with five deaths per day. The share of fatal road accidents has increased phenomenally as Indian cities are giving more importance to high-speed roads for vehicles – and not to ensuring (Safe Driving) safe access for all. Violation of rules - signal jumps, drunken driving and over-speeding is also rampant in the city. As per the statistics compiled by the Research Wing of the Ministry of Road Transport and Highways in its report titled 'Road Accidents in India 2022', Delhi had the highest number of deaths due to road accidents that counting up to 2,300.

With the purpose to address the issue, the project named 'Four Wheels, One Life' was implemented in Delhi NCR with the support from United Way of Mumbai and it targeted to 18+ College goers and RTO license applicants. Awareness regarding Road safety for the driver licensing and training improved the competence and capability of drivers. Promotion of public safety by imparting road safety training among college youth and learning license applicants in Delhi were also relevant beneficiaries under the program.

## ***“FOUR WHEELS ONE LIFE”***

# COVID RESPONSE

## SHORT TERM RESILIENCE BUILDING POST COVID

### SUPPORT TO TRAFFIC FORCES

United Way Delhi and 3M teamed up to provide 150,000 Disposable Particulate Respirators to the Traffic Department in Gurugram as part of their ongoing efforts to support frontline workers amidst the rising pollution levels and deteriorating air quality in the region. This alliance aims at aiding the personnel on-duty function better with lesser respiratory risks. The provision of respiratory masks significantly contributed towards the safety and protection of the personnel in the frontline forces as while on the field, they are in vulnerable environment exposed to harmful particulate matter. This initiative underscores 3M's commitment to public health and safety and United Way Delhi's efforts to support the community in these challenging times.

### CAPACITATING HOSPITAL INFRASTRUCTURE

In continuation of UWDs ongoing efforts for building post-Covid resilience in communities, we joined hands with Synchrony to support the capacity building of Diagnostic Services at Indira Gandhi Hospital, Dwarka, New Delhi. An advanced high-frequency 500mA X-ray machine along with a digital CR System and a Spirometry machine were installed at the Radiology and Pulmonary departments respectively. The machines, free of cost to use, will support the medical infrastructure of the hospital post covid, primarily for poor and underserved sections of society. More than 1500 OPD patients are diagnosed and overall 3000+ individuals are benefited from the machines per month.

# VEDANTA DELHI HALF MARATHON 2022

The Vedanta Delhi Half Marathon brings together civil society and inspires the community to make a difference by supporting NGOs and several causes. United Way Delhi, with more than 50 not-for-profit organizations and 100+ individual fundraisers, raised funds and awareness for early childhood development, education & youth, health & well-being, livelihood & financial stability, gender diversity & inclusion, environment & biodiversity, disaster response and more.

The pandemic has led to a concrete realization of having renewed compassion towards society. United Way Delhi, the official philanthropy partner of the Vedanta Delhi Half Marathon 2022, affirmed and stood for compassion towards the community. "Each Step Counts" was the motto last year! As the city ran, a group of first-generation learners had access to quality education, girl students from socio-economically marginalized sections of the community gained access to pursuing sports as their career, more youth acquired skills, there were more shelter homes for animals, toddlers were supported in battling cancer, students and youth had access to mental health. For many, it brought hope, joy, and happiness.

***EACH STEP COUNTS #INSPIRECHANGE***

# 1.6 Cr *funds raised*

**Uday Rai Nanda**

**Funds Raised: 1,82,101 Supporting: Udayan Care**

## VDHM STORY OF #INSPIRECHANGE2022

"I am Uday, a class IX student studying at Amity International school, Pushp Vihar. I love listening to music and am extremely fond of animals. I also like playing football and gaming I have been inspired by my cousins raising funds for various causes they believe in. I always thought as a child that I would raise money for animal welfare. However, I have become aware of the importance of education and how we can build a better society. would like to do my bit by raising funds for the lesser fortunate. I believe that every single rupee contributed to this cause counts. I am extremely inspired by the slogan "Beti Bachao Beti Padhao". My school runs the girl child education classes for the underprivileged girls, in the evening after my school finishes, I always admired that and wanted to do something from my side to help in this cause. I got my chance this year by running in the upcoming Vedanta Delhi Half-Marathon and raising Charity Funds for this cause-Girl Child Education through this run. I pledge to support Udayan care. Your support can keep girls in school and complete their graduation through the Udayan Shalini Fellowship Program, Young girls transform into educated, empowered, and confident Shalinis (dignified women). Since 2002, the program has impacted over 11,000 girls in 15 states of India. Your support will enable us t bring many more deserving girls in the program. Please donate to educate young girls. I believe that every single rupee contributed to this Cause counts in a short span of 20 days has managed to support the cause which will impact the supporting community."

# STORIES FROM THE COMMUNITY

## "Transforming Education Inside and Outside the Classroom"

Ms. Pooja, a dedicated teacher at Aya Nagar Girls School, is a true education enthusiast. She is not just someone who imparts knowledge; she is a teacher who deeply cares about her students' learning journey. Her commitment to their success is unwavering.

What sets Ms. Pooja apart is her keen observation of her students. She doesn't merely go through the motions of teaching; she pays close attention to each student, ensuring they grasp the concepts. She encourages peer learning, fostering an environment where students can learn from each other. Her devotion to her students' well-being extends beyond the classroom. She wants to make sure they are not just learning but excelling in their studies. Recognizing her remarkable teaching skills, someone suggested that she share her expertise with a broader audience. Ms. Pooja embraced this idea and decided to start her own education YouTube channel, which she named "The Tech Schooling." This channel has become a beacon of knowledge for countless learners. Through her videos, she has touched the lives of many, helping them excel in their education.

Ms. Pooja's primary focus has always been on enhancing the quality of education within her classroom and school. Her dedication to her students is commendable. However, what makes her truly exceptional is her willingness to go the extra mile. She saw the potential to make a difference in the lives of students beyond the confines of her school, and she seized that opportunity with her YouTube channel.

"The Tech Schooling" isn't just about academic lessons; it's a testament to Ms. Pooja's passion for education. It's a platform where she shares her knowledge and wisdom, empowering learners far and wide. Her genuine desire to make a positive impact on the educational journey of her students is evident in every video she creates.

In a world where teachers play a pivotal role in shaping the future, Ms. Pooja stands out as an exemplar of dedication, care, and a profound commitment to education. Her story is a testament to the fact that great teachers don't just teach; they inspire, nurture, and uplift the minds of their students, both in the classroom and beyond.

## "From Struggle to Success: Chandni's Journey"

Kumari Chandni, a 32-year-old single mother, found herself in a dire situation when her husband abandoned her and their two children in Delhi with nothing but a few clothes. However, her life took a turn for the better when two women associated with the Samridhhi Project of United Way Delhi came to her rescue. These women provided Chandni and her children with food and shelter, offering a glimmer of hope in an otherwise bleak situation. With limited skills and facing numerous rejections, Chandni began stitching clothes for her neighbors. Through word of mouth, she started to receive a few orders each day, though the income was barely enough to make ends meet. Her breakthrough came when she learned about the 'Samridhhi Project' from a woman she referred to as her "angel." Kapashera, a hub for apparel and manufacturing, became Chandni's opportunity to thrive. She joined the Samridhhi Project as a beneficiary and received training in business development, management, and financial literacy. Starting with a traditional sewing machine, she gradually incorporated modern, technology-enabled equipment, significantly boosting her productivity. Today, Chandni owns a successful boutique, has hired an assistant, and received financial support from the Samridhhi Project. Her monthly income has grown from 3,000 to 15,000 and even more during festival and wedding seasons. She now uses online platforms like Paytm, Phonepe, and Google Pay to manage orders and payments, and her clients are satisfied with her work. Chandni's story is a testament to her resilience and the transformative power of the Samridhhi Project, which helped her rise from adversity to success.

# TESTIMONIALS FROM STAKEHOLDERS

## FROM OUR UWD TEAM

I have worked with United Way Delhi since 2010. I always had a passion to take learning to the doorstep of students – making education simple, easy and accessible for all. Through the STEM learning initiative, we have imparted several ways and methods for introducing the subjects of science and maths easier and fun learning concepts for the children, especially for the students at Government schools. My journey in seeing the progress of this initiative, students and the organization over the past years has been one of profound growth, innovation where in every step a horizon of new learning has been discovered. With United Way Delhi, I wish to contribute further more for the development of STEM education for the students in different communities and equip them with skills to reach new heights.”

**Mr. Uma Shankar Sharma, Senior Facilitator,  
STEM Education**

“When I first joined United Way Delhi, I was eager to channel my enthusiasm for environmental issues into actionable projects that would benefit our local community. The journey has been both challenging and rewarding, and I'm proud of the milestones we've achieved together. One of our most significant achievements during my tenure has been the successful implementation of the "Solar Electrification in 20 Govt Schools". Through collaborative efforts with the team, Donor partner, and local government, we've managed to install 20 Solar panels in 20 Schools, and educate communities on sustainable living practices. Looking ahead, my vision for United Way Delhi's environment & health programs is to continue expanding our reach and impact. I believe in the power of education, advocacy, and grassroots initiatives to drive lasting change. I envision collaborating with schools, universities, and local businesses to create a network of environmental champions who can lead sustainable initiatives in their respective communities. Together, we can work towards a greener, cleaner, and more resilient Delhi.”

**Ms. Zoya Khan, Project Coordinator -  
Environment & Health Programs**

## FROM GOVERNMENT OFFICIAL

An initiative like SMHI is borne out of emotions, and a depth of care for adolescents, especially from low-resource backgrounds. While we take pride in the design of the programme and are constantly striving towards its refinement, our drive to lead this initiative cannot be devoid of these emotions. I am happy to share that our implementing partner, United Way Delhi shares the same trust, values and guiding principles to lead the start of a movement---of normalizing the idea of mental health and access to care for all children in Delhi and beyond. It has been a pleasure working with UWD on SMHI. Their strong sense of commitment towards this programme, followed by their robust involvement with all key stakeholders and a thoughtful awareness of constant innovation has been deeply inspiring. We hope to sustain this relationship and grow together in what looks like a roadmap to meaningful social change”

**Minister of Urban Development & Health,  
Government of NCT, Delhi**

## FROM CORPORATE PARTNER

“It's been an absolute pleasure working with the United Way Delhi (“UWD”) team in the capacity of an advisor (especially in the area of fund raising) – the passion towards their work is palpable. The thinking of the team is strategic and they are venturing out in all the futuristic thematic areas of development. Being the philanthropy partner for the Vedanta Delhi Half Marathon has been a feather in their cap and will give the requisite return on investment in the long term. Wishing the talented staff at UWD another year of passion and fulfilment.”

**Rohit Bahadur, Grant Thornton Bharat LLP**

## FOUNDATIONAL LEARNING FOR EARLY CHILDCARE

- 2202 pre-schoolers underwent growth monitoring and were weighted for age
- 9% rise in enrolment of children in Anganwadi/Preschool due to effective implementation of UWD's foundational learning programs
- 73 % of children exhibiting positive results on development milestones (such as Fine and Gross Motor Skills, Socio-Cognitive, Physical Development)
- 128 Anganwadis/preschools catering to 5610 children were covered
- 86% Anganwadi Workers enhanced their understanding regarding their roles and responsibilities

## EDUCATION & YOUTH SUCCESS

- 149 students successfully designed Science & Maths models
- 82% schools' teachers took innovative initiative through sharpening the skill of students on science models, TLM development at their own
- 1571 school students who were served received STEM education
- 71% school teachers showed enhanced competency to use digital classroom
- Strengthening subjected related performance of school students:
  - Math-16%
  - English-25%
  - Science-25%
  - Overall shift-22%
- SMC worked effectively and resolved 60% issues at the school level
- 252 youths working as young community leaders/mentors through constant capacity building and motivation by the project to serve for the social cause
- 228 mentors engaged in providing guidance/mentorship to their juniors
- 1080 youths received training on soft skills
- 1761 youths enrolled for remedial education

## DISASTER RESPONSE

- 305 driving license applicants received orientation on safe driving and riding issues.
- 317 college students received orientation on safe driving and riding issues

## FINANCIAL STABILITY

- 540 women served who received training in financial and digital literacy
- 3450 of persons served who received job skills training
- 2789 trained youths placed in healthcare sector
- 46 SHGs are functional
- 43% of women initiated interlending within the SHG group to initiate business enterprise
- Training of Women=IRDP-114, WE Leads-321+Samriddhi-105=540
- Number of SHGs (Samriddhi-25+WE Leads-7+IRDP-14) =46
- Inter lending=10 SHGs (Samriddhi)+10 SHGs (IRDP)=20

## GOOD HEALTH & WELLBEING

- 20562 school students participated in the classroom life skill sessions (mental health & well-being)
- Referral of 116 school students to the mobile mental health unit (MMHU)
- 340 individuals participated in the health check-up camps for TB.
- 2774 individuals underwent screening to determine their health status
- Awareness of 2095 community members on different health issues (Non communicable/communicable disease)
- Capacity building of 220 health professionals on mental health well-being
- Awareness session with 3803 community members on mental health well-being

## ENVIRONMENT

- 5,85,000 of community members reached out with real-time monitoring of AQI levels, through the LED Display Monitors in Gurugram area
- 272 schools across India developed and submitted the ideas to convert their existing infrastructure to a green one
- 25.6 tons of plastic waste repurposed and reused in the value chain through mobilization of community members of solid waste management
- More than 6,20,000 Individuals engaged through positive behaviour change towards environmental sustainability
- 20 government schools that have 5Kw hybrid photovoltaic solar power installed would inspired 5665 students to pursue careers in STEM, digital applications, and tinkering labs.

## LEDs displaying real-time AQI to be installed in Delhi-NCR

STAFF REPORTER ■ NEW DELHI

As part of its 'United for Air' initiative, Carrier India will install LED display boards across Delhi-NCR which will display real-time air quality index and suggest ways to tackle air pollution. Starting its campaign, the company has installed 17 LED display boards in key locations in Gurugram.

"Carrier India continues to expand United for Air, a corporate social responsibility (CSR) initiative designed to educate and bring communities together to work for cleaner outdoor air. Carrier plans to install additional air monitors and LED display boards to make real-time data accessible to more residents of Gurugram. It will take this initiative to other locations of Delhi-NCR soon," said a statement.

These boards will display

air quality on the basis of data collected from air quality monitors installed in the nearest location. The company has installed eight such air quality monitors in collaboration with Gurugram Metropolitan Development Authority.

The air quality monitors connect with LED boards that display real-time PM2.5 and PM10 levels, along with recommendations such as 'Go for an evening walk' and 'Do yoga outdoors' when conditions are good, and 'Wear masks' and 'Avoid strenuous activities' when pollution levels are high.

# UNITED WAY DELHI IN SOCIAL MEDIA

**unitedwaydelhi** We are thrilled to announce that United Way Delhi has been honored with the Impact Award by the Lotus Petal Foundation! This prestigious award was presented to us by Ms. Manjari Januar, Bihar's first lady IPS officer, who graced us as the Chief Guest of the evening. It was a proud moment for us as our Governing Body Member Ms. Shan Jain received the award.

The award ceremony was made even more special by the presence of Dr. Bindeshwar Pathak, Padma Bhushan, who added his invaluable insight and wisdom to the proceedings. We are truly humbled and grateful to have been recognized for the impact we have made in the community, and we would like to extend our heartfelt thanks to the Lotus Petal Foundation for this honor.

At United Way Delhi, we remain committed to creating lasting change and making a positive impact in the lives of those we serve. This award is a testament to the hard work and dedication of our team, as well as the generosity and support of our donors and partners.

#RepublicDayCelebration at UWD | While we continue to work in the field towards advancing the common good, as a breather and to rejuvenate, a sports engagement-cum-potluck event took place recently.

Also during the event, conversations were held on the journey of India as a republic over the years and the role of civil society in the overall development.

**United Way Delhi** January 11

United Way Delhi is honoured to be a part of the CSR Meet Nuh for our partnership in various #socialImpact projects in the region, organised by the office of Haryana State CSR Trust, Government of Haryana.

During the meeting with the MP Shri Rao Inderjit Singh, Minister of State (MoS) of the Government of India, & Member of Parliament of Gurugram, the team discussed the domain UWD is working on.

The team had a discussion about the restoration of groundwater levels on how UWD can contribute and take this initiative ahead which will significantly contribute towards the United Nation's sustainable development goals, i.e. sustainable cities and communities (goal 11), and climate action (goal 13).

UWD is confident that the team can make a positive and #sustainable difference to the #environment with their collective efforts.

To ensure plastic never becomes a waste, PepsiCo India & United Way Delhi's project #TidyTrails has been adopting a circular model.

In partnership with Nagar Nigam Mathura Vrindavan, as a part of this initiative, post-consumer plastic waste is being collected from over 800 establishments in #Mathura -#Vrindavan. The plastic waste is being recycled and given back to the local community in form of public utility items such as tables and benches. Also our on-ground awareness campaign aims at building Community Champions and Ambassadors on #Environment and #Sustainability.
